

Silicone Sponge Rubber S3920

Description:

S3920 is a silicone sponge rubber with closed cellular structure. The material has excellent heat and chemical resistance.

Specifications	Values
Colour	White
Density	600 ± 50 kg/m ³
Elongation at break	> 400 %
Tensile	> 2.5 N/mm ²
Water Absorption	< 5 %
Temperature Range in Air	-30° C to +180° C
